

Event title: Filming on your phone - FNZ Workshop

Date of event: 14th December 2023

Host: Duchy College, Stoke Climsland.

We ran our second “Filming on Your Phone” workshop with Down to Earth Media just before Christmas.

This gave a group of farmers the opportunity to learn about how to share their stories and the good work they are doing. Since the start of the project, 12 farmers have now received media training.

These workshops cover the elements required to create a film:

- Storytelling – how to structure the film to convey messages effectively
- Filming – how to use different shots, camera angles and techniques
- Editing – how to stitch clips together to create the film.

By learning how to communicate their stories, we hope the farmers who attended these workshops will feel confident to share their findings from working with us on Farm Net Zero.
